Mr. Bill Borselli  
Saguaro Drywall

Tom Archer Custom Homes & Design, LLC. has been using Saguaro Drywall exclusively for drywall work for 10 years. I choose to have Saguaro Drywall on my team for all of my custom home projects. All of my custom homes require loads of attention and detail. Saguaro provides the level of service and cooperation I demand from all of my Subcontractors. Honestly, I do not even bid out the drywall work scope any longer. I receive a fair bid from Saguaro Drywall, and I know how they will perform with quality and schedule.

For the last 6 years, I have used Saguaro Interior Finishes for one of the more beautiful finishes in a custom home; interior Venetian plaster. The level of detail and quality of the finish plaster set my custom homes apart from others. Saguaro Interior Finishes have truly put together a team of artisans in the field of plaster that can make you look at the finished project and say "Wow".

I am very pleased to have Saguaro Drywall on my team.

Sincerely,

Tom Archer
